

2021 JUN 29 PM 1:42

MISSISSIPPI STATE DEPARTMENT OF HEALTH

**2020 CERTIFICATION****Consumer Confidence Report (CCR)**

Wren Water District  
Public Water System Name  
# 480013

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community Public Water System (PWS) to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the PWS, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR.

**CCR DISTRIBUTION (Check all boxes that apply.)**

| INDIRECT DELIVERY METHODS (Attach copy of publication, water bill or other)   | DATE ISSUED |
|---|-------------|
| <input checked="" type="checkbox"/> Advertisement in local paper (Attach copy of advertisement)                         |             |
| <input checked="" type="checkbox"/> On water bills (Attach copy of bill) ✓  |             |
| <input type="checkbox"/> Email message (Email the message to the address below)   |             |
| <input type="checkbox"/> Other _____  |             |
| DIRECT DELIVERY METHOD (Attach copy of publication, water bill or other)  | DATE ISSUED |
| <input type="checkbox"/> Distributed via U. S. Postal Mail  |             |
| <input type="checkbox"/> Distributed via E-Mail as a URL (Provide Direct URL): _____                                    |             |
| <input type="checkbox"/> Distributed via E-Mail as an attachment  |             |
| <input type="checkbox"/> Distributed via E-Mail as text within the body of email message                                |             |
| <input checked="" type="checkbox"/> Published in local newspaper (attach copy of published CCR or proof of publication) |             |
| <input type="checkbox"/> Posted in public places (attach list of locations)   |             |
| <input type="checkbox"/> Posted online at the following address (Provide Direct URL): _____                             |             |

**CERTIFICATION**

I hereby certify that the CCR has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the PWS officials by the MSDH, Bureau of Public Water Supply.

Name

Title

Date

David Jewellings, President 5/26/2021

**SUBMISSION OPTIONS (Select one method ONLY)**

You must email, fax (not preferred), or mail a copy of the CCR and Certification to the MSDH.

Mail: (U.S. Postal Service)  
MSDH, Bureau of Public Water Supply  
P.O. Box 1700  
Jackson, MS 39215

Email: [water.reports@msdh.ms.gov](mailto:water.reports@msdh.ms.gov)

Fax: (601) 576-7800

(NOT PREFERRED)

**CCR DEADLINE TO MSDH & CUSTOMERS: BY JULY 1, 2021**

| <b>Disinfection By-Products</b> |   |         |       |               |      |     |          |   |
| 81. HAA5                        | N | 2020    | 3     | No Range      | ppb  | 0   | 60       | By-Product of drinking water disinfection.  |
| Chlorine                        | N | 2020    | 1.1   | .8 – 1.7      | Mg/l | 0   | MDRL = 4 | Water additive used to control microbes   |

\* Most recent sample. No sample required for 2020.

As you can see by the table, our system had no violations. We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some contaminants have been detected, however, the EPA has determined that your water IS SAFE at these levels.

We are required to monitor your drinking water for specific contaminants on a monthly basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We did complete the monitoring requirements for bacteriological sampling that showed no coliform present. In an effort to ensure systems complete all monitoring requirements, MSDH now notifies systems of any missing samples prior to the end of the compliance period.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Our water system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601.576.7582 if you wish to have your water tested.

All sources of drinking water are subject to potential contamination by substances that are naturally occurring or man made. These substances can be microbes, inorganic or organic chemicals and radioactive substances. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1.800.426.4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline 1.800.426.4791.

The Wren Water District, Inc. works around the clock to provide top quality water to every tap. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

Your annual consumer confidence report will not be mailed to you individually, but will be published in the Monroe Journal, and available for viewing at the Water District Office.
